

# What is my User ID?

## What is my User ID?

Your User ID is GENERALLY your first name, a period, and then your last name. However, if there is more than one person in the system with your name, there may be numbers attached to the end of your name as an identifier. (For example, if you have a common name like John Smith, your ID may be john.smith1234). To verify your ID, click on Current Students on the WebAdvisor screen, go to "Account Information" and click on "What is my User ID?" to find it.
