2018

SUMMER CAMPS
**MIND GAME SCIENCE**  
Rising 3rd to 6th graders  
June 18–22 | $160  
Join us for games focused on deductive reasoning, iterative strategy, mathematics, probability and more. This camp will focus on the foundational aspects of science that are often overlooked in science-based activities for younger students. Campers will learn about science while having a fun and socially engaging experience by partaking in games that rely on applying skills while following the scientific method.

**MARINE BIOLOGY CAMP**  
Rising 6th to 8th graders  
July 23–27 | $160  
Get your "sea-legs" ready and join us for a week of fun with marine biology. Campers will get in the water to collect field samples and examine a marine habitat up close as they identify and dissect a variety of marine life. Campers will also design their own fish and set up an aquarium. As an added bonus, we will tour behind the scenes of the NC Aquarium at Pine Knoll Shores.

---

**3-D PRINTING AND ELECTRONICS: DRONE DESIGN I & II**  
Rising 6th to 9th graders  
July 30–Aug 10 | $300  
In the first week of this two-week session, campers will learn how to design and print a Mini-Drone utilizing 3-D design software, and a variety of 3-D Printers. Campers will also learn basic 3-D design and printing principles. In week two, campers will advance their 3-D printed mini-drones by adding electric motors to their designs, making the drones capable of flight. Campers will also be provided basic electronic fundamentals and principles. At the end of the second week campers will be allowed to fly their drones on the campus grounds under the supervision of the instructors.
