

CAREER PROGRAMS

CRAVEN
COMMUNITY COLLEGE

GET ON THE PATH TO A REWARDING CAREER

Early Childhood Education

Career Programs can help you find a new career path if you're just starting college or looking for a new field of employment. Our faculty will help you learn a skill that unleashes your full potential. From Business Administration and Criminal Justice to Computer-Aided Drafting and Welding, we have a variety of business, service, engineering, manufacturing, and transportation offerings.

Program options range from certificates and diplomas to two-year Associate of Applied Science degrees. Career Programs allow students to start at the certificate level for most programs and build to a one-year diploma and, ultimately, an associate degree. Course offering and delivery methods include seated, hybrid (seated/online), and online; many courses are offered both day and night and some are offered on Saturdays.

Esthetics

INFORMATION TECHNOLOGY

Get your career on a path toward the future with a degree in Information Technology. Our coursework develops your ability to communicate professionally and think critically in a variety of disciplines. Learn how to program logic principles, identify security risks, select appropriate hardware and software computer components, and more.

BUSINESS & ACCOUNTING

Develop a fundamental knowledge of the business functions and processes needed to succeed in today's global economy. Program includes concepts such as accounting, business law, economics, management, and marketing. Nearly all our business programs have certificate and diploma options, and can lead to an Associate in Applied Science, the recognized credential for community college technical program completion.

ENGINEERING TECHNOLOGY

Craven's applied engineering programs such as Electronics and Mechatronics provide students with hands-on experience in the field. Graduates can support local construction, manufacturing, and the military. These programs have also recently undergone changes to allow students to learn sustainable technologies.

TRANSPORTATION SERVICES

The transportation industry offers many fast-paced career opportunities. Our Associate in Automotive Systems Technology emphasizes a well-rounded curriculum that includes brakes, engine performance, automatic transmissions, diagnostics, and more, while our Associate in Aviation Systems Technology provides training in aircraft maintenance that prepares workers for employment at Fleet Readiness Center East at Marine Corps Air Station Cherry Point.

CAREER OPPORTUNITIES

WANT TO GET INVOLVED?

Craven CC's Career Programs includes a number of student organizations tied into fields of study, including SkillsUSA, the Automotive Club, Kappa Beta Delta, Machinists Club, Welding Club, and Criminal Justice Society. Through participation, students build leadership skills, learn more about their chosen careers, and travel. Students who maintain a 3.5 (B+) grade point average are eligible for membership in the college's chapter of Phi Theta Kappa, the international two-year honor society. Some students in these programs have also joined Encore!, the college's singing ambassadors, the Student Government Association, or the Hurst Student Ambassadors program, which provides scholarships to the college's top students in exchange for their service.

Mechatronics

Manufacturing Technology

MANUFACTURING TECHNOLOGY

We have a long tradition of supporting our area's industrial leaders. Some of our key support programs include CNC Machining, Computer-Aided Drafting, Industrial Systems, and Welding programs that feature some of the latest high-tech equipment (five-axis router, 3D printers, and Lincoln Welders). The college currently offers Associate degrees in Manufacturing Technology.

PUBLIC SERVICES

If you want to help others in a non-medical setting, you might be interested in cosmetology or esthetics; basic law enforcement training (BLET) or criminal justice; or early childhood education. These careers help build self-esteem in others, maintain safe communities worldwide, and prepare children for elementary and middle schools.

CAREER OPPORTUNITIES

Manufacturing research and development technicians
Manufacturing team leaders
Quality assurance technicians
CAD/CAM technician

Police Officer
Sheriff
State Trooper
Correctional Officer
Cosmetologist
Esthetician
Preschool Teacher
Childcare Director

Career Programs are 'Hire' Education!

STILL IN HIGH SCHOOL?

Through the Career and College Promise program, high school students can earn eligible certificates in career programs areas that will move them closer to an associate degree. Students should contact their local high school counselors to find out more.

STRATEGIC PARTNERSHIPS

Our region's largest companies and organizations rely on Craven Community College to provide them with employees who are capable of filling a wide range of skilled positions. Some of the strategic partners within our hiring network include the following:
