

HAVELOCK CAMPUS

CRAVEN
COMMUNITY COLLEGE

SOAR TOWARD A BRIGHTER FUTURE

Aviation Management and Career Pilot

Whether you are looking to begin a new career, improve skills in your current job, or transfer to a four-year university, the Craven Community College (Craven CC) Havelock Campus offers a wide range of classes to get you started. Our faculty and staff are dedicated to providing excellent service and instruction for our students, and our innovative programs offer something for everyone—from career readiness to university transfer courses, we provide the stepping stones that will set you on the path to success.

At Craven CC, you can complete your degree in as few as three semesters and transfer to one of North Carolina's public universities or colleges. Our flexible and customized courses provide military and civilian students the skills and confidence they need to succeed. Courses are guided by industry standards and meet the changing needs of the community.

Aviation Systems Technology

ACADEMIC DEGREES

Craven Community College's Havelock Campus has an array of degree programs to suit all academic and career aspirations. Whether you are looking to transfer to a university or begin a career in the aviation industry, the Havelock Campus offers associate degrees that can take your college dreams to the next step. Academic degrees currently offered on the Havelock Campus include:

- **Associate in Arts**
- **Associate in Science**
- **Associate in Engineering**
- **Associate in Applied Science – Aviation Management and Career Pilot Technology**
- **Associate in Applied Science – Aviation Systems Technology**

WORKFORCE DEVELOPMENT PROGRAMS

We offer several Workforce Development programs for students to earn certificates and training. These programs are ideal for students looking to start a new career or enhance a current one. Programs offered on the Havelock Campus include:

- **Airframe and Powerplant Prep Course**
- **Aviation Sheet Metal**
- **College and Career Readiness (GED, Adult High School, English as a Second Language)**
- **Lean Six Sigma**
- **Military Academic Skills Program**
- **Notary Public**
- **Nurse Aide**
- **Pharmacy Technician**
- **Phlebotomy**
- **Tools for Advanced Manufacturing**
- **Welding**

NC STATE ENGINEERING

Through our exclusive partnership with NC State, students can earn a Bachelor's of Science in Engineering degree without ever leaving the Havelock campus. The program is housed in our new 16,000-square-foot STEM Center. We are proud to be the only community college in the state to offer this unique opportunity.

Students in this program are able to participate in enrichment opportunities such as design and robot competitions, community outreach design projects, plant tours, and technical seminars. After completing two years of pre-engineering courses at Craven CC, students can apply to transfer to one of NC State's 18 engineering Bachelor's degree programs, including the Mechanical Engineering Systems program based on our campus.

AVIATION

Students can help their careers take flight in our Institute of Aeronautical Technology, home to our esteemed aviation programs.

- **Aviation Management and Career Pilot:** This degree program includes a commercial pilot certificate with instrument rating, multiengine rating, and certified flight instructor rating. Students in this program have access to our state-of-the-art flight simulator and take to the sky with experienced instructors to ensure they are qualified for jobs as commercial, corporate, and military pilots.
- **Aviation Systems Technology:** Students become familiar with a wide variety of military and civilian aircraft from nose to tail. In this degree program, they can earn an FAA license and associate degree, which will transfer to Southern Illinois University's online program and allow students to complete a Bachelor's degree in Aviation Management without leaving the area.
- **Aviation Sheet Metal:** This certification program will educate students in several sheet metal fabrication skills. The program includes hands-on training with aircraft, sheet metal tool usage and safety, and proper installation. Students will have the opportunity to take the Career Readiness Certification exam and will develop an understanding of all duties assigned in an entry-level Aviation Sheet Metal position.

Aviation Sheet Metal

MILITARY FRIENDLY

Our convenient location and custom programs accommodate the transitory nature of military life. We strive to meet the diverse learning needs of MCAS Cherry Point, the Havelock community, and surrounding areas. We work closely with Fleet Readiness Center East, as well as employees stationed on base. Our Cherry Point location is a National Testing Center for CLEP, DANTES, and Pearson Vue.

We offer several programs designed specifically for our active-duty and veteran students, including Military Academic Skills and Tools for Advanced Manufacturing for Veterans. We also offer a number of resources and support, such as the Collegiate Veterans Association and Military Affairs Resource Center for students who are active duty, active duty dependents, veterans, or veteran dependents. Scholarships are available for all military, veterans, and dependents.

Additionally, students who are active duty, veterans, or dependents may qualify for one of our Military Benefit Programs. Several programs are eligible for VA benefits, and scholarships are available for qualifying veterans. The Military Affairs Resource Center assists all military-affiliated students in that process.

Achieve Your Dream

CHERRY POINT OFFICE

Craven CC's advising office aboard Marine Corps Air Station Cherry Point addresses the unique academic, financial, and social needs of our military, military-affiliated, and authorized civilian students. Our advisors provide one-on-one assistance, enabling you to get the most out of college while easing the challenges of balancing a military career and education. In addition to classes offered on the Havelock and New Bern campuses and online, we offer classes during lunchtime, conducted at the Jerry Marvel Training & Education Building on base. Our Cherry Point office also operates as a National Testing Center.

ACCELERATED SATURDAY

If you're looking to complete your degree quickly, our Accelerated Saturday program may be a good fit. This program gives you the opportunity to earn an associate degree in three semesters by going to school online and attending class on Saturdays. The flexibility is ideal for students with extremely busy schedules, such as those who are employed full time, parents, or active military.

STUDENT SERVICES

The Student Services office provides all services that the main campus offers in New Bern. From enrollment and placement testing to academic advising, career counseling, and financial aid, we have you covered! For assistance, stop by the Redd Building or call 252-444-2119.

FINANCIAL AID & SCHOLARSHIPS

We recognize that beginning or continuing your education can sometimes require financial assistance. We are happy to help you with this challenge and make the most out of your college education. If you are unemployed or meet certain income criteria, you may be eligible for a scholarship to help cover the cost of classes on our Havelock campus.
