

LIBERAL ARTS UNIVERSITY TRANSFER

CRAVEN
COMMUNITY COLLEGE

EXPLORE A WORLD OF NEW OPPORTUNITIES

The Liberal Arts and University Transfer (LAUT) programs at Craven Community College chart a path for student success that is affordable and of the highest quality, which gives students the freedom to transfer to any university program to pursue a bachelor's degree and more. By pursuing degrees that include an Associate in Arts (AA), Associate in Science (AS), or Associate in Fine Arts (AFA), students are able to build a foundation for personal growth and development that furthers their educational dreams.

The journey toward your bachelor's degree begins here at Craven Community College. As an accredited college that has served Craven County for more than 50 years, we have established a reputation of providing local education options that are reputable and easily transferable to colleges and universities, particularly those located in North Carolina.

Students who complete the AA or AS are guaranteed junior status at a state-supported university

ASSOCIATE IN ARTS

The Associate in Arts (AA) degree is a 60-hour degree program designed for students who plan to transfer to a college or university and complete a Bachelor of Arts degree. This degree leads students to develop a strong foundation in English, fine arts/humanities, social/behavioral sciences, mathematics, and natural sciences. The coursework within the AA meets most freshman and sophomore requirements at the baccalaureate level.

ASSOCIATE IN ENGINEERING

The 60-hour Associate of Engineering (AE) program is designed to prepare students to transfer into one of the five ABET accredited engineering programs in North Carolina. Within the AE, coursework includes upper level mathematics and general education credits, and an Intro to Engineering course (EGR 150) which helps students understand and choose from the multiple specialties within engineering. Students completing the AE are encouraged to double major with an AS.

ASSOCIATE IN SCIENCE

The Associate in Science (AS) degree is a 60-hour degree program designed for students who plan to transfer to a college or university and complete a Bachelor of Science degree. The AS degree not only emphasizes natural science and mathematics, but also provides students with a solid foundation in English, fine arts/humanities, and social/behavioral science, as well as includes enough elective hours to allow students to further explore areas of interest. The coursework within the AS meets most freshman and sophomore requirements at the baccalaureate level.

ASSOCIATE IN FINE ARTS

Craven CC offers two Fine Arts degrees, the Associate in Fine Arts in Visual Arts (AFA-Visual) and Associate in Fine Arts in Music (AFA-Music). The Associate in Fine Arts (AFA) degree is a 65-hour program designed for students intending to transfer to a college or university to complete a Bachelor in Arts degree, a Bachelor in Fine Arts degree, or a Bachelor in Music degree. Twenty-eight semester hours are dedicated to a general education core, but 36 hours are remaining for students to take a deep dive into their study of music or art.

The AFA program is also perfect for those wanting a comprehensive study of music or art without pursuing a bachelor's degree.

NC STATE UNIVERSITY PARTNERSHIP:
Earn a BS in engineering entirely from the Craven CC Havelock campus

Pirate Promise
Guaranteed ECU admission for qualifying students attending our partnering community colleges

Tuition at Craven CC is approximately 40% less than at public universities

GLOBAL & CULTURAL INITIATIVES

Craven Community College recognizes that our world is one of global connections and honors that fact with outreach programs across the state and the world. Diversity of cultural expression is central to a liberal arts education, and we embrace the opportunity to help students recognize the interdependency of our global partners. Our Study Abroad initiative allows students to study in other parts of the world to foster a richer, more vibrant global perspective. Study Abroad sites from recent years include Croatia, Ireland, Scotland, and Costa Rica.

ACADEMIC EXCELLENCE

Craven Community College's high standards in the classroom and dedicated faculty ensure a university-quality education for your first and second year of college. Extracurricular opportunities—such as the renowned chapter of Phi Theta Kappa International Honor Society, the college's Honors Program, and the National Science Foundation Scholars in Engineering & Science—guarantee students strong interdisciplinary connections. Eligibility for these organizations and programs is available to students who complete 12 curriculum hours and earn a 3.5 GPA or better.

TRANSFERABILITY

Craven Community College's connections with all North Carolina public colleges and universities, and partnerships with many public and private universities within the state, allow Craven students to transfer credit hours to pursue a bachelor's or other specialized degrees. The high academic standards in our classrooms ensure students can transfer Craven credits to any college or university in the country. Popular transfer student options include the following:

Carolina Student Transfer Excellence Program (C-STEP) that facilitates high-achieving students in completing an AA or AS at Craven and then transferring to UNC-Chapel Hill to complete a BA or BS.

East Carolina University's SECU Partnership East allows students to complete an elementary or middle grades teaching degree on-site at Craven Community College's New Bern Campus.

NC State Bachelor of Science in Engineering Program allows students to complete a NCSU degree in Mechanical Engineering on-site at Craven Community College's Havelock Campus.

Craven CC also has strong partnerships with UNC-Wilmington, N.C. Wesleyan, and many other educational institutions, both public and private.

How Far Do You Want to Go?

THE ARTS AT CRAVEN CC

At Craven CC, we value the talents of emerging musicians and artists who participate in music and visual arts classes. Encore! is Craven Community College's singing student ambassadors who perform throughout the community and studio art students often participate in the college's annual art show. In this juried show, the winning piece is awarded the President's Art Award and becomes part of the college's permanent art collection. The collection is housed across campus and each piece is labeled to include the artists' name and title of work.

WANT TO GET INVOLVED?

Students who maintain a 3.5 (B+) grade point average are eligible for membership in the college's chapter of Phi Theta Kappa, the international two-year honor society. Some students in these programs have also joined Encore!, the college's singing ambassadors, the Student Government Association, or the Hurst Student Ambassadors program, which provides scholarships to the college's top students in exchange for their service.

STILL IN HIGH SCHOOL?

Through the Career and College Promise program, high school students can earn eligible credits that will move them closer to an associate degree. Students should contact their local high school counselors and the Career and College Promise Coordinator at Craven to find out more.
