## 2022 EASTERN NORTH CAROLINA MIDDLE SCHOOL ENGINEERING CAMP APPLICATION

Craven Community College

305 Cunningham Blvd

Havelock, NC

**July 18-22, 2022**

**open to current 6<sup>th</sup>, 7<sup>th</sup> and 8<sup>th</sup> graders**

Craven Community College, in partnership with the Eastern Carolina Aviation Heritage Foundation, will be offering a week-long, non-residential summer day camp for middle school students (current 6<sup>th</sup>, 7<sup>th</sup> and 8<sup>th</sup> graders) on the Craven Community College Havelock campus. The camp will be led by local STEM teachers in partnership with engineering staff from Fleet Readiness Center East and NC State University.

The camp operates from 9:00 am to 3:00 pm, Monday through Friday. Lunch and snacks will be provided daily. **CDC guidelines will be followed and safety protocols will be practiced to help protect all students, staff and volunteers.** The total camp cost is \$250.00 per student, and limited scholarships may be available for students with demonstrated financial need.

### Application Process:

1. Complete application
2. Obtain a sealed recommendation letter from teacher, school counselor or principal recommending student. This can also be emailed by the person writing the recommendation to [mcgheet@cravencc.edu](mailto:mcgheet@cravencc.edu).  
*The recommendation letter should be written by a teacher or other school official and speak on behalf of the student. The letter should address the student's interests and abilities, as well as the student's character and suitability for attending the camp. Home school students may choose an adult who interacts with the student regularly and can speak to her/his abilities, interests, character, and suitability for attending camp.*
3. Have student complete a statement on why he/she would like to attend camp  
*The student letter is very important in the selection process, so the student should take their time composing their statement.*
4. Obtain letter of demonstrated financial need from school counselor if applying for a scholarship. Scholarships can be requested for need-based students. Since we do not wish to receive personal financial information from families, we rely on the school to indicate to us if a family has demonstrated need. Generally, participation in the free and reduced lunch program is an indicator, but a school counselor or other school official may be able to speak to other factors influencing financial need. *For homeschooled students, parents should write the letter for the scholarship request indicating factors influencing financial need without providing specific financial information.* Please submit this letter with the other components of the application.

5. Mail all the above to the address given on the bottom of the application. **Mailing must be post-marked no later than April 4, 2022. Do not send any money at this time.**

Applications submitted after the deadline will only be considered if there are openings in the camp. We consider a number of factors in selecting attendees from the pool of applicants. **We rely heavily on the teacher recommendation and the student statement of why they want to attend camp to make decisions.** We also select students from a cross-section of backgrounds and geographic areas and invite students who may be interested in engineering, but have little or no background, as well as students who already have some previous experiences. Application date can play a small role when all other factors are equal. *Students will be notified by April 25, 2022 if they have been accepted to the camp or placed on a waiting list.*

If you have questions, please contact Tanya McGhee at 252-444-0739 or [mcgheet@cravencc.edu](mailto:mcgheet@cravencc.edu). This application can be found at [www.ecaviationheritage.com](http://www.ecaviationheritage.com)
