CRAVEN

COMMUNITY COLLEGE

GET ON THE PATH TO A REWARDING CAREER

Career Programs can help you find a new career path if you're just starting college or looking for a new field of employment. Our faculty will help you learn skills that unleash your full potential. From Business Administration and Criminal Justice to Computer-Aided Drafting and Welding, we have a variety of business, service, engineering, manufacturing, and transportation offerings.

Program options range from certificates and diplomas to two-year associate of Applied Science degrees. Career Programs allow students to start at the certificate level for most programs and build to a one-year diploma and, ultimately, an associate degree. Course offerings and delivery methods include seated, online, and hybrid (seated/online). Many courses are offered both day and night and some are offered on Saturdays.

Electrical Engineering

INFORMATION TECHNOLOGY

Engage with the latest technological advancements in the progressive field of Information Technology. Learn how to program logic principles, identify security risks, select appropriate hardware and software computer components, and more.

Database Administrator • Telecommunications Specialist • Web Developer • Information Systems Manager • Computer Support Specialist

ENGINEERING TECHNOLOGY

Electronics and mechatronics provide students with hands-on experience in a wide variety of technical fields. Many of them also allow students to learn sustainable technologies. Graduates will have the knowledge to support local construction, manufacturing, and the military.

Industrial Technician • Maintenance Technician • Technical Service Provider • Process Improvement Technician • Industrial Technology Manager • Engineering Technician

MANUFACTURING TECHNOLOGY

Some of our key support programs include CNC Machining, Computer-Aided Drafting, Industrial Systems, and Welding programs that feature some of the latest high-tech equipment. We also offer associate degrees in Manufacturing Technology.

Manufacturing Research & Development Technician • Manufacturing Team Leaders • CAD/CAM Technician • Quality Assurance Technician

BUSINESS & ACCOUNTING

Develop fundamental knowledge of business functions and processes needed to succeed in today's global economy. Courses include accounting, business law, economics, management, and marketing. Nearly all of our business programs have certificate and diploma options and can lead to an Associate in Applied Science degree.

Bank Teller • Media Sales • Accountant • Self-Employment

Esthetics

PUBLIC SERVICES

If you want to help others in a non-medical setting, you might be interested in cosmetology or esthetics, basic law enforcement training (BLET), criminal justice, or early childhood education. These careers help build self-esteem in others, maintain safe communities worldwide, and prepare children for elementary and middle schools.

Sheriff • Police Officer • State Trooper • Correctional Officer • Preschool Teacher • Childcare Director • Cosmetologist • Esthetician

TRANSPORTATION SERVICES

The transportation industry offers many fast-paced career opportunities. Our Automotive Systems Technology program emphasizes a well-rounded curriculum that includes brakes, engine performance, automatic transmissions, and diagnostics, while our Associate in Aviation Systems Technology program provides training in aircraft maintenance that prepares students for employment opportunities at Fleet Readiness Center East at Marine Corps Air Station Cherry Point.

Automotive Technician • Aircraft Mechanic • Brake & Tire Specialist • Service Manager • Self-Employment • Service/Parts Manager • Service Writer

CAREER PROGRAMS ARE 'HIRE' EDUCATION!

STILL IN HIGH SCHOOL?

Through the Career & College Promise (CCP) program, high school students can earn eligible certificates in career program areas that will move them closer to an associate degree. Students should contact their local high school counselors or Craven Community College's CCP Advisor to find out more.

WANT TO GET INVOLVED?

Craven CC's Career Programs include a number of student organizations tied into fields of study, including SkillsUSA, Automotive Club, Kappa Beta Delta, Machinist Club, Welding Club, and Criminal Justice Society. Through participation, students build leadership skills, learn more about their chosen careers, and have travel opportunities. Students who maintain a 3.5 (B+) grade point average are eligible for membership in the college's chapter of Phi Theta Kappa, the international two-year honor society. Some students in these programs also join Encore!, the college's singing ambassador group, as well as the Student Government Association or the Hurst Student Ambassadors program, which provides scholarships to the college's top students in exchange for their service.
